

Kim just retired after working to develop international trade for UK companies.  
He has been a councillor since 2001 with a short break in 2017  
He wrote the bid which secured £250,000 to transform the Old Fire Station to the Weald Information Centre, and more recently a grant for £16250 to pay for the Electric Charging points.  
He has been involved with the development of the Community Centre since the year 2000, no wonder he has gone grey !
